

Please insert the following new claim:

A new and distinct variety of rose plant of the miniature class, substantially as herein illustrated and described as a distinct and novel rose variety due to its abundant, dark red (RHS Red Group 53A) flowers, vigorous and compact growth, year round flowering under glasshouse conditions, resistance to disease, winter and heat hardiness, suitability for production from softwood cuttings in pots as well as budding as a field grown plant, suitability for production as a tree rose, light floral scent, and durable flowers and glossy, green (RHS Green Group 137A and Yellow-Green Group 139A) foliage which make the variety suitable for distribution in the floral industry.

REMARKS

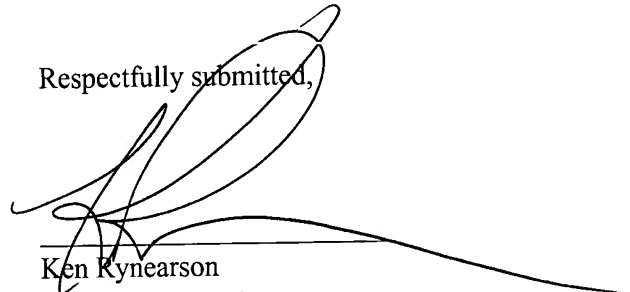

Accompanying this Preliminary Amendment, is a Continuation Application.

Applicants request that the Examiner allows the approved drawings for application No. 10/136,451 in the Continued Application.

Date:

10 OCTOBER 2007

Respectfully submitted,

Ken Rynearson
